## Macabre:

Horrifying, ghastly, horrible.

The shots here are **not retouched**, the main work is about **posture and makeup**. I really enjoy this kind of shooting, lots of laugh guaranteed!

The only retouching work is not really one: I force or saturate hues, darken, blacken.

You may remark that some pictures are reworked versions of others, for example in the [Portraits gallery](#).

The special processing of the colors & the dark areas give a demonic look to this unnatural Marilyn

Picture yourself opening a coffin, a beautiful woman is inside, well preserved. Suddenly she opens her eyes...
