Animals, insects, the sky, landscapes... Some examples of **photos taken in nature**.

Full moon ©AbsurdePhotonThe territory of Selene

Ablaze sky ©AbsurdePhotonThe moment was ephemeral, seconds later the sky wasn't the same at all

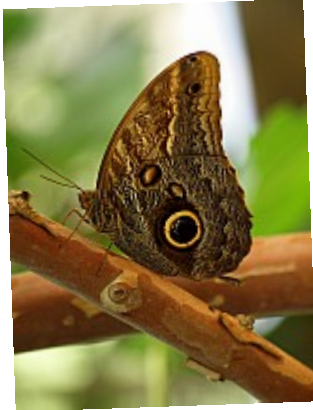

Crescent moon ©AbsurdePhotonWhat i like in this photo is the craters which reveal the relief

Close encounter not so kind ©AbsurdePhotonA close encounter of the third (not

so) kind

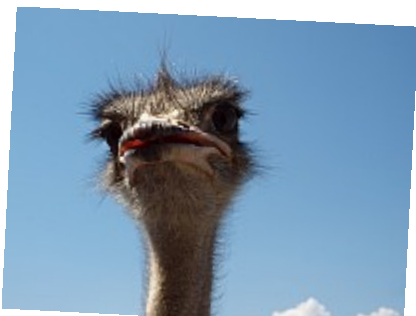

Big Brother is watching You ©AbsurdePhotonA defense mechanism that looks like an eye

Croc-croc ©AbsurdePhotonA surprise visit at breakfast early in the morning, it came munching something just over our heads

Blue damsel ©AbsurdePhotonAn elegant blue damsel

Don't bother me ©AbsurdePhotonWas it a bit angry?

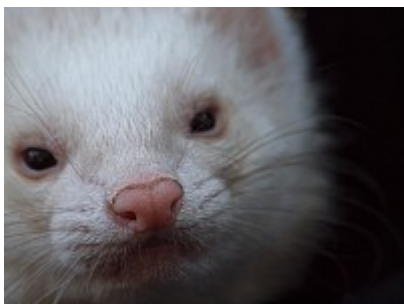

Little Brother is Watching You ©AbsurdePhotonIf I felt observed, I turned my head and... shot it

Predator ©AbsurdePhotonThe hunting instinct is powerful in cats, even domesticated

Which one to choose ? ©AbsurdePhotonSo many pistils to discover in a bee's life!

Surprised poot-poot ©AbsurdePhotonPoot-poot-poot, what are you doing here?

Bored @AbsurdePhoton Behind the bushes, I didn't dare intrude in this giant's melancholy

What ?! @AbsurdePhoton Cuttlefishes are extremely curious animals

So what ? @AbsurdePhoton This magnificent iguana with beautiful colors turned its head suddenly: I diverted my stare immediately

Where is Charlie ? @AbsurdePhoton Let's play a game: where is Charlie ?
