# Glamour photo gallery in true fake 3D

Topics:  [3D](#)  [English](#)  [Gallery](#)  [Glamour](#)  [Photo](#)

Using the [depthmap](#) method to transform already existing photos, the **3D** effect brings them more depth.

**With or without 3D goggles**, (re)discover my [Glamour](#) photos with a different point of view!

See [how to visualize](#) several 3D photo **formats**.

- Munchable (original) ©AbsurdePhoton -  
The original version of this nice behind

- Munchable 3D (black and white anaglyph) ©AbsurdePhoton -  
The impression of depth is increased by the background distance

- Munchable 3D (cross-eyed anaglyph) ©AbsurdePhoton -  
The coloured version without goggles

- Munchable 3D (animated) ©AbsurdePhoton -  
If it's always moving it can't be munched!

- In-descent (original) ©AbsurdePhoton -  
A peeping Tom way of climbing down stairs

- In-descent 3D (colour anaglyph) ©AbsurdePhoton -  
Each element of the photo is clearly defined in depth

- In-descent 3D (cross-eyed anaglyph) ©AbsurdePhoton -  
These legs already make you squint...

- In-descent 3D (animated) ©AbsurdePhoton -  
Dizzy in the stairs?
