Glamour photo gallery in true fake 3D

Topics:  [3D](#)  [English](#)  [Gallery](#)  [Glamour](#)  [Photo](#)

Using the [depthmap](#) method to transform already existing « flat » photos, the **3D** effect brings more depth to them.

With or without 3D glasses, (re)discover my [Glamour](#) photos from a different point of view!

Be sure to check [how to visualize](#) several 3D photo **formats**.

Munchable (original) ©AbsurdePhotonThe original version of this nice behind

Munchable 3D (black and white anaglyph) ©AbsurdePhotonThe impression of depth is increased by the background distance

Munchable 3D (cross-eyed anaglyph) ©AbsurdePhotonThe coloured version without 3D glasses

Munchable 3D (animated) ©AbsurdePhotonIf it's always moving it can't be munched!

In-descent (original) ©AbsurdePhotonA peeping Tom way of climbing down stairs

In-descent 3D (colour anaglyph) ©AbsurdePhotonEach element of the photo is clearly defined in depth

In-descent 3D (cross-eyed anaglyph) ©AbsurdePhotonThese legs already make you squint...

In-descent 3D (animated) ©AbsurdePhotonDizzy in the stairs?
